Fukuoka International Environmental Management Program

(Main Theme : General Waste Management)

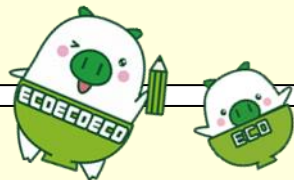

Learn in Fukuoka and help build a sustainable future.

Training Period: **November 9 (Mon.) – 13 (Fri.), 2026**

[Overview]

Focusing on Kitakyushu City and surrounding areas, participants will learn from a multifaceted perspective about the entire process—spanning from policy design and implementation to social integration—of initiatives such as the enhancement of waste sorting and collection systems and the clustering of resource-circulating industries through the Eco-Town project.

[Features]

This training program is conducted by inviting government officials responsible for core environmental policy from Vietnam (Hanoi), Thailand (Bangkok), and India (NCT of Delhi).

You can learn with overseas administrative officials and engage in exchanges from an international perspective.

★ Eligibility:

International students enrolled in universities or graduate schools in Fukuoka Prefecture.

★ Recruitment number:

3 students

★ Participation Fee

Free!

★ Program Language **English**

Let's study together!
